D. Presentation by Edna Kennedy Giving an Update on Burton ISD and Construction Project

Superintendent Edna Kennedy started her presentation by mentioning the water supply issues that the city has been experiencing. It was pointed out that there are currently 585 students in the district. This number is more than twice the actual population of Burton. There is a lot of growth out in the rural areas of the county while the population of the City of Burton has declined since 2020. Mrs. Kennedy also told Council that no new transfer students are being accepted due to the lack of space.

She assured Council that the new drainage that is part of the construction project taking place at the school will be much better and will remedy any issues that have been experienced in the past regarding high water due to inclement weather.

The asphalt is planned to be laid next week for the new track. She invited the community to use the track for a safe place to walk outside of school hours. Work will soon be starting on the new academic building being erected at the old football stadium location.

Dr. Kennedy also explained that efforts are being made to urge the state government to allow Burton ISD to retain more of its wealth (tax receipts). A lot of the district's wealth is currently required to be sent to the state for use in other school districts. A proclamation has been sent to the state to encourage allowing local money to remain here and be used for local needs.

She told Council of the ISD's partnership with the Texas A & M School of Nursing to provide medical services to anyone needing them. The medical van comes to Burton on Wednesdays. Check with the school for times.

Dr. Kennedy advises everyone to follow the Burton ISD Facebook page to keep informed on all things regarding the school district.
